TRANSMITTAL OF THE BUILDING 779 CLUSTER NON-RADIOLOGICAL CLOSEOUT PLAN
AND NON-RADIOLOGICAL CLOSEOUT REPORT FOR THE ADMINISTRATIVE AREA OF
BUILDING 779 – BWM-034-99

Enclosed are four copies of the Building 779 Cluster Non-Radiological Closeout Plan and four
copies of the Non-Radiological Closeout Report for the Administration Area of Building 779
These documents are for Rocky Flats Field Office (RFFO) review and notification to the
Colorado Department of Public Health and Environment (CDPHE)

The purpose of the Non-Radiological Closeout Plan is to ensure that sufficient characterization
and remediation, for non-radiological contaminants, will be conducted to allow demolition of the
Building 779 Cluster

The purpose of the Non-Radiological Closeout Report for the Administration Area of Building
779 is to provide the information required by the Non-Radiological Closeout Plan This
information demonstrates that all Contaminants of Concern (COCs) within the Administrative
Area of Building 779 have been identified, removed or remediated to a level below regulated
levels, and that the Administrative Area can be released for demolition

These reports are consistent with the agreement reached for purpose and content with the
Department of Energy (DOE), CDPHE and the Environmental Protection Agency (EPA)

We would appreciate notification of your transmittal of the documents to CDPHE, and their
subsequent approval, in order that timely mobilization for and demolition of Building 779 can
be initiated
